

The concept of the **swivel coat rack** is to provide a maximum number of hooks in a narrow space. It is designed for heavy loads, can be swivelled to a 60 degree angle and has automatic locking in the 90-degree position. Swivel coat racks can be spaced at intervals of 750mm from each other. Due to its sturdy wall mount bracket, it is virtually maintenance-free and easy to use.

See **accessories** for issue tags and additional options.

A2 Coat rack	48	52	56	60	64	68	72	76	80	84	88

Now configure your desired coat rack. The product base number together with your selection create the article number. Using this number you can order from us by phone or by email:

Tel. + 49-2334 9096-10
info@garderoben-haarmann.de

Base number

A	B
SG	

For more information on ordering and your article number please see page 2!

Technical details as at 11/2014, subject to modification

Configure your desired coat rack

Order

1.

Assemble your desired coat rack using the fact-sheet. This will then be individually manufactured according to your requirements - Quality directly from the manufacturer!

3.

Order using your article number by phone or by email:

Tel.+49-2334 9096-10
info@garderoben-haarmann.de

The correct article number

2.

Select from the respective options in the categories A-F. The result is the article number, which you use to order directly from us.

If you still have questions, then simply call us or send us an e-mail.

How can I get my correct article number?

Easy. For example you want to configure and order the coat rack stand 70*28?

Proceed as follows: First of all select the desired profile from category **A** e.g. option 2 - the right corner profile 65*22mm. The first digit after the base number **RG70*28** is 2.

Select the respective options from the remaining categories. The last 3 or 4 digits are taken from the length of the coat rack, category **F**. For example If you select for a 660 mm long coat rack, the last 3 digits of the article number will be 660.
